MEDICINAL.

its properties are Demulcent, Nutritive, Balamic, Soothing and Healing. Combining all there qualities, it is the most effective LUNG BALLAM ever cliered to sufferers from pulmoary diseases.

br. J. F. HAYWOOD, of New York, voluntarily inderses it. Read what he says:

New York, Sept. 19, 1877.

Dr. Tutt: Dear Sir—During this year I treated nine hundred cases of lung diseases. In the lower wards of the city the cases were of a very severe type. It was there my attention was called to Tutt's Expectorant, and I confess my surprise at its wonderful power. During a practice of twenty years I have never known a mede of twenty years I have never known a medcinete act as promptly and with such happy elects. It instantly subdued the most violential of coughing, and invariably cured the disease in a few days. I cheerfully endorse it as the best lung medicine I over used.

11s. Tutt: Dear Sir- hy little son was attackwith pneumonia last winter, which left him with a violent cough that lasted till within a mouth since, for the cure of which I am indubt-ed to your valuable Expectorant. I had tried and everything recommended, but none did any good until I used your Expectorant, one bottle of which removed the cough entirely. With many thanks, I am yours truly, JOHN M. WEIGLE.

HAD TERRIBLE NIGHT SWEATS.

Memphis, February 11, 1871. Dr. Tuti: Eir-I have been suffering for near-y two years with a severe cough. When I commenced taking your Expectorant I was reduced to one hundred and sixteen pounds in weight. I had tried almost everything; had berildenight sweats. I have taken half dozan bottles. The night sweats have left me, the rough has disappeared, and I havegained fifteen results in fight, i recommend it to all my models. With great respect. made in High, a recom-ends. IMPORTANT QUESTIONS. Sealer, have you caught a cold? Are you are able to raise the phingin? Have you an irritation in the threat? A sense of oppression on the lings, with short breath? Do you have a more current on lying down? A sharp pain new and then in a region of the heart, shoulders and back? IF SO, OUR ADVICE IS to take son been a dose of Tuit's Expectorant; you will now be able to raise the phlegm. In an hour repost the Expectorant, place a hot iron to the best belte two of Tuit's Pills. You will soon field into a pleasant chop and wake up in the morning rough gone, large working treely; ever breathing and the bowels moving in a natural manner. The Russian Socialists.

A Vienna dispatch says: "General Melikoff has been summoned by a revolutionary committee to abandon his post as Chief of the Supreme Executive Commission within a week, The person who attempted to assassinate Gen. Melikoff yesterday is a small, insignificant look ing man with Jewish features. His clothing is superior to his own appearance, which is altogother peculiar. He is of different type from the assessins Salovieff and Mirski. He is more like a stupid tool than a desperate anarchist. His vacant, semi-idiotic laugh when spoken to gave the impression that he had been made tipsy and bribed or persuaded to shoot General Melikoff. Great Morskara street is a rashionable promenade at the time of the shooting, so that the assassin was able to approach within a yard of General Melikoff with out emsing suspicion. The bullet passover the right hip and out at the back without tenshing his body. The man was immediately placed in a curriage and driven to the fortress. Mlodet-ky said at his trial that General Meli-kell would be killed by some of his comrades;

that, slthough his own attemp had failed, a second, and if necessary, a third attempt would Mindetsky was arrested a week ago on sus picton of being connected with political intrisues, but was discharged for lack of evidence Modetsky, after judgment was prenounced against him, seared that he was arrested to Sr. Petersburg in 1879, and deported to lask, but escaped. When he heard his party was preparing a revolution for the 21 of Match, by beard of General Melikoff's appointment, the revolutionists ordered that accoing by done on the 24 irstairt. CENERAL MCNEIL. - In the ex cauve sessize of the Secare on Thursday the commaction of General McNul, as cusus supervisor for the eastern district of Missouri, was rejected by the very decisive vote of 32 pays against 7 year. Plus action was based upon a statement that General McNeil, in the year 1862, while in commuted of United States troops at Palmyra, Mo., entered the execution of chiven citizens of that beighborhood who had been arrested, but not yet tried, on a general charge of "bushwhicking, ' and executed ten of them without trial, as a measure of so called retalistion for the alleged abduction and supposed murder of a Union man in the same county. McNeil's orders required the ex-carion of these prisoners if the missing Unionist was not returned within a certain period, and as nothing was heard from the latter, the orders were carried into effect by McNeil's provest marshal upon the design nated day. It was also stated by members of the Judiciary Committee that the life of the eleventh prisoner was spared by the provest marshal upon an enforced condition that the honor of the farmer's wife should be the price of her hu-band's release, and that General McNeil continued this same provost marshal is service under him after the disgraceful facts became known. General McNeil, early in the administration of President Hayes, was ap-

pointed to the position of Indian inspector, and still holds that office. THE OYSTER LAW .- The Annapolis corres pondent of the Baltimere Sun says: The city delegates were overwhelmed in the House. Thursday on the Maryland and Virginia oyster law for the Potomac river. The counties voted them down almost solidly. The bill now goes back to the Senate for concurrence in the House amendments. There is a compact from revolationery times between Maryland and Virginia securing concurrent fishing rights in the Potomee. The set just rassed by the Maryland Legislature must be concurred in by Virginia before it takes effect. There is a clause exempting citizens of Virginia from any of its provisious, and there is nothing to prevent Baltimore dregers from hailing from Virginia. The law is very stringent, and prescribes that Maryland vessels seized for violiations shall be sold unless the fines are paid. At present there s no restriction on the Potemas dredging, and no license being required by Virginia, many Baltimore oyster versals start for the Potomac, and the county members here say they stop in the Chesapeake and tributaries to trespass on forbidden grounds there. When overhauled they claim to be going to the Potomac. In this way necessity for the State of Maryland's li-

cente is evaded. THE James River and Kanawha Canal Company have closed a contract with the Richmond & Alleghany Railroad Company for the purchase by the latter of all works and frarchises of the canal company. The Richmond company propose to construct a railroad along the entire line of the canal from Richmond to Buchanan, about 200 miles, and from thence about forty miles to Clifton Forge, on the Chesapeake & and Ohio Reilroad. The capitalists of the Riebmond and Alleghany Railroad Company are chiefly bankers of New
